DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3, 5 and 7, drawn to a method for increasing the optical thickness of an optical element, classified in class 427, subclass 10.
 - II. Claims 2, 4,6 and 8, drawn to method for decreasing the optical thickness of an optical component , classified in class 216, subclass 24.
2. Inventions I and II are related in a manner analogous to that subcombinations disclosed as usable together in a single combination. Invention I is drawn to a particular subcombination of steps for increasing the optical thickness of an optical component. Invention II is drawn to a particular subcombination of steps for decreasing the optical thickness of an optical component, and both of the instant inventions are disclosed as useable together in a single combination (e.g., a method for adjusting the optical thickness of an optical component). The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a part of process for the reduction / suppression of flare and ghost in an optical system. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2873

4. A telephone call was made to Klifton L. Kime on February 12, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
